THE subscriber offers for sale his Farm, situated about five miles from Washington, D. C., in Prince George's county, Md. It contains 178; acres, more than 30 of which is a fine alluvial meadow, preducing a ton and a half of hay to the acre, but which under improved cultivation would produce at least two tons. Hay sells in the Washington market at from \$14 to \$20 per ton. About four acres of the place is a marsh, covered with several feet in thickness of black earth, the result of decayed vegetation, which, properly composted, is a source from which the upland may be enriched at a reasonable cost. About 60 acres of the farm is woodland—growth principally oak and chestnut. The land, except the meadow, is oak and chestnut. The land, except the meadow, is undulating, and affords many beautiful sites for building. There are many springs of excellent water on the place, and it is noted for its healthfulness. The soil of the greater part of the upland is a sandy loam, underlaid by clay—in some places, clay predomina-ting. About 75 acres could be divided into small garting. About 75 acres could be divided into small gardening farms, giving nearly an equal quantity of wood
and arable land to each. There is an orchard of 150

ROM WHOSE BASE TO THE TOP STAND IN BOLD RELIEF THE NAMES OF OUR OWN CITIZENS WHO HAVE BEEN RESTORED TO HEALTH BY HAMPTON'S VEGETABLE TINOTURE, A MEDICINE THAT CURES MORE THAN NINETEEN OUT OF EVERY TWENTY WHO TRY IT.

TWENTY WHO TRY IT.

"TILL another witness for "Hampton's Vegetable Tincture."—This sertificate is from one of our largest and most enterprising farmers—the owner of those splendid oxen exhibited at the late Agricultural Fair, and who, in person, did the ploughing, with the same, that took the premium. We mention this, as, before Mr. Horne took the Tincture, his condition was such as to despair of even visiting the Fair, much less taking such a laborious part as he did, to the astonishment of those who had seen his state a short time before.

Baltimore, Feb. 4, 1852.

Messrz. Mortimer & Mowbray—Genrs: Having been affilicted with Chronic Inflammatory Rheumatism for some time, in its worst form, I tried every remedy that came within my reach, without any success; in fact, my sufferings increased with every new remedy I tried, until I was scarcely able to walk, from the dreadful pains and swelling in my limbs. I had also an ulcer formed on my right wrist, which gave me intense pain.

When in this condition, Mr. Scott, Conductor on the Suspensions Railread, with several others called my attention.

When in this condition, Mr. Scott, Conductor on the Suquehanna Railroad, with several others, called my attention to the many wonderful cures made by Hampton's Vegetable Tincture. I determined to give it a trial, as a last resort. You well remember my sufferings at the time I got the Tincture from you—they were almost past endurance. I am happy now to inform you, that in a short time after taking it, I was relieved from pain, and could walk without difficulty, and in about four weeks I was enabled to take part in the ploughing match at our late Agricultural Fair. The ulcer on my wrist is now entirely cured, and I am in the enjoyment of the very best health, with no symptoms of my old disease; all of which I feel bound to say I owe to the great healing and restorative powers of Hampton's Vegetable Tincture.

My great confidence in it has induced me to recommend it

table Tincture.

My great confidence in it has induced me to recommend it to others, and I have also seen its good effects in a number of cases. My little daughter had been in bad health for some time: no medicine seemed to reach her case, or to do her any good, until I gave her this Tincture of Hampton's, which soon restored her to robust health. I do therefor cheerfully bear my testimony in favor of this valuable medicine, and I wish you to send me a dozen bottles, that I may always have it at hand. Yours, respectfully, ELISHA P. HORNE,

Monekton Mills, Baltin

Hear him, ye Sick! No Medicine but Hampton's Vegetable Tincture ever had such a Mass of Testimony.

REV. VERNON ESKRIDGE, U. S. N.

PORTSMOUTH, Va., Aug. 18, 1851.

Mr. J. E. Boush—Dear sir: While I am, in general, opposed to patent medicines, candor compels me to state that I have great confidence in the virtues of Hampton's Vegetable Tincture. For several months past I have used it in my family: and in dyspepsia, loss of appetite, dizziness, and general debility, with entire success. So far as my experience extends, therefore, I take pleasure in recommending it to the afflicted as a safe and efficient remedy.

I am, respectfully, yours,

Vernon Eskridge,

Chaplain, United States Navy.

Greater weight of Testimony cannot be given. Greater weight of Testimony cannot be given.

Can any unprejudiced mind in the world ask stronger testimony or more convincing proof of the great restorative and curative powers of Hampton's Vegetable Theture than given below? The writer is one of our most highly exteemed citizens, a man of integrity, and, it is extensively known, has been for a long time suffering under disease; bis altered appearance now is a subject of remark, and gives additional testimony and weight to the certificate below. He is also the ron of the old Doctor Dunan, whose great skill as a physician is well known to most of the oldest inhabitants of this city.

BALTIMORE, Feb. 9, 1852.

RALTIMORE, Feb. 9, 1852.

Messr: Mortimer & Monebray—Gentlemen: It is with real pleasure that I am able to attest to the general healing and curative powers of Dr. Hampton's Vegetable Tincture. Some time during last November I was taken with a very bad and serious cough. I was advised to take Cod Liver Oil, and did so, but, getting no better, I was induced to try your Tincture. I got one bottle, and, before I had used it, all my cough left me. Permit me also to state, that for the last fifteen years I have suffered very much from Acute Rheumatism and Vertigo, confining me, at times, to my bed. I am fully convinced that I owe my present good health to the use of the Tincture, and a kind Providence.

You are, my friends, at liberty to use this as you may think proper; and believe me yours, very respectfully,

G. DUNAN.

A CLOUD OF WITNESSES.

We have certificates from Captain Canot, brother to the eminent physician to Louis Napoleon, President of the French republic, who was cured of Rheumatism of seven years standing; one from Rot. Gault, do., of seven years; one from Mr. Oldham, Baltimore Custom-house, of a dreadful case of dyspepsia; one from Jmo. Luke, of a case of dyspepsia and general debility; and one from J. K. Stapleton, esq., of Baltimore, with hundrids of others.

COKE, TAR, and LIME!

On hand and for sale at the Washington Gas Works.

THE COKE as a fuel gives intense heat, and ignites almost as readily as charood. The Coal Tar is used chiefly as a paint for the preservation of timber, iron, &c. The Lime, being highly impregnated with ammonis, is of great values as a manure, and far superior to the ordinary lime when used for that purpose.

Georgetown and Its Affairs.

Georgetown, March 5-12 m. The prospect of our mechanics for a heavy summer's work has not been so flattering for many years. Already we hear of contracts for quite a number of large buildings being given out, and of the intention of many other persons to build through the course of the summer. This is very gratifying; and it is hoped that some of our capitalists will turn their attention to the erection of small dwellings, as such have been greatly in demand with us for the last year or

Uneasy State of Europe. There does not appear to be a power in Europe which is not, more or less, uneasy at the present aspect of affairs. Even Russia has taken the alarm. In the plenitude of his continental dictatorship, the Emperor Nicholas has, it is said, expostu ated with Louis Napoleon on the contemplated assumption by the latter of the imperial crown. If this should prove true, as there is good reason to believe it will, the designs of the French Presdent on Belgium-a subject to which we have alluded in another article-will scarcely be realized without a general war in Europe. It is apparent that in the event of the Autocrat entering the field, the triumph of the French arms will be exceedingly problematical. The old feud, indeed. between Napoleon and the rest of Europe, will be renewed, and, in all probability, with a like disastrous termination to France. In fact, Louis Napoleon will not have even as good a chance of success as his uncle. He wants the military genius of the Emperor. He is not, as the Emperor was at first, the representative of liberal priniples, in opposition to the time-worn despotisms Splendid as the French army is in discipline numbers and coninments it must inevitably fail, if undertaking to wage war against allied Europe. What neither Louis the Four-teenth nor the Emperor Napoleon could do, can-not be done by "Augustulus," as Victor Hugo

[Philadelphia Bulletin. THE ARMING OF EUROPE.-It is very evident hat things are tending to a head at Europe, and before a great while some extraordinary events will transpire. The New York "Times" says: On the Continent the temperature approaches war heat. There's a great furbishing up of oxi-dized muskets, swabbing out of old field-pieces, and whetting of swords. The alarm may be empty, but it is general. There are those who fancy they can penetrate the future far enough to foretell where the storm is to burst, and whom it will annihilate. France, by common consent, is set down for Belgium and the banks of the Rhine; Russia, it is supposed, will cure itself of a chronic uneasiness by seizing Turkey; Austria will finish and round off her Italian domains by appropriating Piedmont; and Prussia is to give her straggling States another stretch, in order to rob Switzerland of Neufchatel. The programme may all be imaginary, save the first performance upon it; and while that is confessedly probable. there is nothing impossible in the rest. The 'Times' has already avowed its fear lest the Czar should avail himself of the neutrality of France, and the powerlessness of England, to run his frontiers to the Ægean. The wonder will be if that ultimate object of Russian avarice will be oregone at an opportunity so pre eminently favorable. Forbearance is not among the virtues of the Northern Ursus Major.
